

## **Stormwater Fund**

### **Mission**

The goal of the City of Allentown's Stormwater Management Program is to control, through a variety of Best Management Practices, the entrance of pollutants into the local waterways through its MS4 system. The City strives to meet the requirements of its PaDEP issued, NPDES permit no. PA0063665; EPA enforced Title 40 Code of Federal Regulations, Part 122; and the Clean Water Act. The program promotes the use and continual assessment of City-wide best management practices to reduce runoff volume, pollution and localized flooding while improving the water quality in Allentown's waterways and the quality of life of its residents. Main priorities of the program include improvement of the City's Stormwater collection system through a combination of inspection, upgrading, repair and replacement; and the promotion of public safety.
